**CREATE YOUR OWN UNIQUE RUG**

About

# Van Besouw

Van Besouw is known for its wide collection of rugs. Quirky cotton, special knitted rug or classy tufted carpets. A collection where style and class are key and colour catches the eye.

A stylish colour palette has been developed for each collection. Precisely matching the form, appearance and character of the product concerned. The result is a finely formed, broad collection with an enormous diversity of colours and textures.

The entire collection can be manufactured as a custom rug. Combinations of colours and materials, organic shapes, round, rectangular or even your own design. Mix and match to create your own unique rug.

A process in which we are happy to provide advice.

Dedicated craftsmanship

## The Van Besouw atelier

Each rug is unique. All our rugs are manufactured in the right size with the desired shape and finish. From simple rectangular to complex organic shapes.

The chosen rug, the designed shape and the carefully selected edging. All elements converge at the Van Besouw atelier.

### Computer-controlled cutting

All rugs are cut by computer. A cutting plan is drawn up for each rug and the carpet is cut from the roll in a dimensionally stable manner. This minimises cutting loss and ensures an efficient process.

### Finishing of rugs

Finishing the rugs is craftsmanship. All rugs are taken in hand one by one and finished with the desired look and feel.
