craftmanship and design

## VAN BESOUW

Since 1839, a continuous drive for innovation has brought Van Besouw where it is today: a leading supplier of contemporary carpets. Craftmanship and innovation are at the heart of everything we do. The Van Besouw collection is put together with the greatest care. From fiber to yarn and backing to pile, all carpets are thought out to the finest detail, using the latest production techniques. Only the best materials are good enough. High-quality and durable, made to last and with consideration for people and the environment.

At Van Besouw, all carpets are developed based on a careful selection of materials, textures and colors. The designs and color palettes are a balanced mix of the latest trends and timeless classics, all designed in the Netherlands. They exude a sense of class, luxury and comfort and give every room the right character. A Van Besouw carpet or rug stands for exclusive design, elegance and sophistication. It makes you feel passionate; you don't just see it, you feel it.

history

# EXCELLENCE SINCE 1839

1839, Goirle

Van Besouw was founded in the Netherlands in 1839 by home weavers.

1885, Goirle

Start of the first factory with production of linen and bags.

1967, Goirle

Start of Van Besouw as a brandname.

Slogan: it's not just a carpet ... it's a Van Besouw.

1967, Goirle

The "turn around" in Van Besouw's history. Introduction of the cotton carpets made on raschel knitting machines.

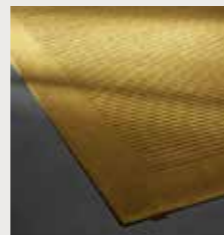

1966, Goirle

Benno Premsele (Industrial Designer) was invited, to design the next step of Van Besouw.

2003, Goirle

Introduction of the PURE RUGS collection.

2010, Genemuiden

Van Besouw was taken over, into the current organisation, Hillfloor.

#

Cotton is the tradition of Van Besouw and famous for this all over the world.

#

Van Besouw is well known for its special colours and innovative products.

2013, Genemuiden

Re-introduction of the cotton collection. With a new colour range and new qualities.

2012, Genemuiden

Introduction of the Van Besouw PREM collection.

A polyamide contract collection, based Van Besouw's key values.

2017, Genemuiden

Introduction of the soft collection.

2021, Genemuiden

Opening of the Van Besouw Atelier.

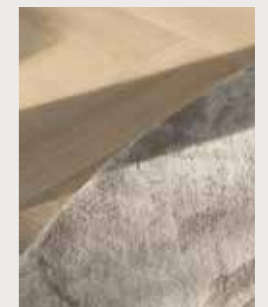

2024, Amsterdam

Brandcentre, coming soon

2022, Genemuiden

Introduction of the allure collection.

## WOOL

Wool is the most luxurious fiber for carpet. And thereby 100% natural. The material has a warm, insulating and purifying effect and a very luxurious matte appearance.

## SOFT

An expressive collection where color, softness and shine are central. Always matching the shape, appearance and character of the collection in question. The whole collection is made of polyamide yarns.

## PROJECT

The project collection offers durable carpets of high quality, ideal for business use because of their strength and durability. A perfect choice for any professional environment due to its polyamide yarns.

## COTTON

Cotton became a high-quality yarn from an inferior raw material. Combined with the knitting technique, the typical writing effect is created. The natural properties that we take full advantage of.

## ALLURE

Unique patterns combined with durable yarns characterize the handwoven collection. With high-pile and lustrous appearance. This collection includes Econyl and PA grades, the perfect representation of durability.

made to last

## MATERIALS

Carpet is not only a functional element in an interior, but also a statement of luxury and comfort. The choice of materials plays a crucial role here.

Whether soft, cotton, allure or wool, these luxurious materials are designed to last and provide comfort, style and elegance in any room where they are used. With proper care and maintenance, rugs made from these materials will retain their beauty for years and create a luxurious atmosphere in your home.

Environmentally conscious and future-proof

## SUSTAINABILITY

At Van Besouw we use only the best materials. When developing new products, there are two choices. Either natural materials, or the best synthetic products. Always ecologically responsible.

For Van Besouw, sustainability consists of two important elements. First, of course, the raw materials. But just as important is the lifespan. A Van Besouw has a longer lifespan than an average carpet. That makes all the difference! Economically and environmentally.

## CERTIFICATIONS

The WOOLMARK label is a textile quality assurance and product -certification program that guarantees the fiber content and quality of wool products. Woolmark guarantees that the products tested are composed of natural, renewable and biodegradable wool.

The GUT label represents the requirements for environmentally friendly flooring. The label is awarded to floor coverings and carpets that are produced with respect for the environment, personal safety and comfort, throughout the product's life cycle.

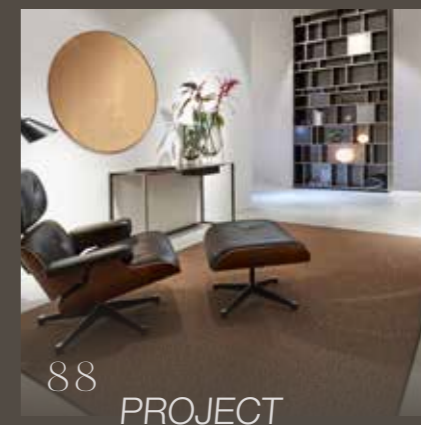

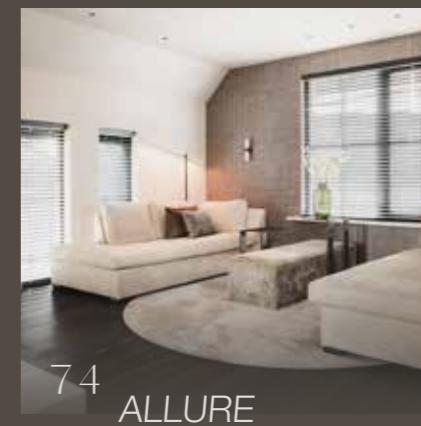

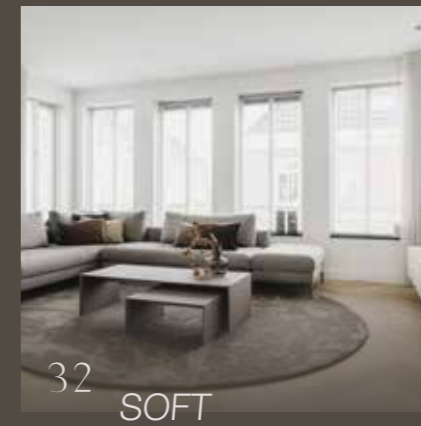

ECONYL is an innovative recycled polyamide yarn extracted in a patented way from plastic waste such as fishing nets and industrial waste. ECONYL thereby contributes to reducing the global amount of waste from landfills and oceans. This makes industrial production possible with respect for people and the environment.

Indoor Air Comfort GOLD - certified product shows additional compliance of product emissions with the criteria of many of the voluntary specifications issued by most relevant ecolabels and similar specifications in the EU and requirements for sustainable building certifications. Therefore certified products are those with the best-in-class low emissions, thus good for indoor air quality. A few labels that fall under Eurofins Gold can be found below.

product overview  
COLLECTION

# Cotton \ 3801

The Van Besouw 3801 is a true design classic. A Van Besouw invention from 1969 that is still relevant today. Typical of Van Besouw: the 3801 is a knitted carpet. That shows in the optics: a curly loop that falls frivolously in all directions.

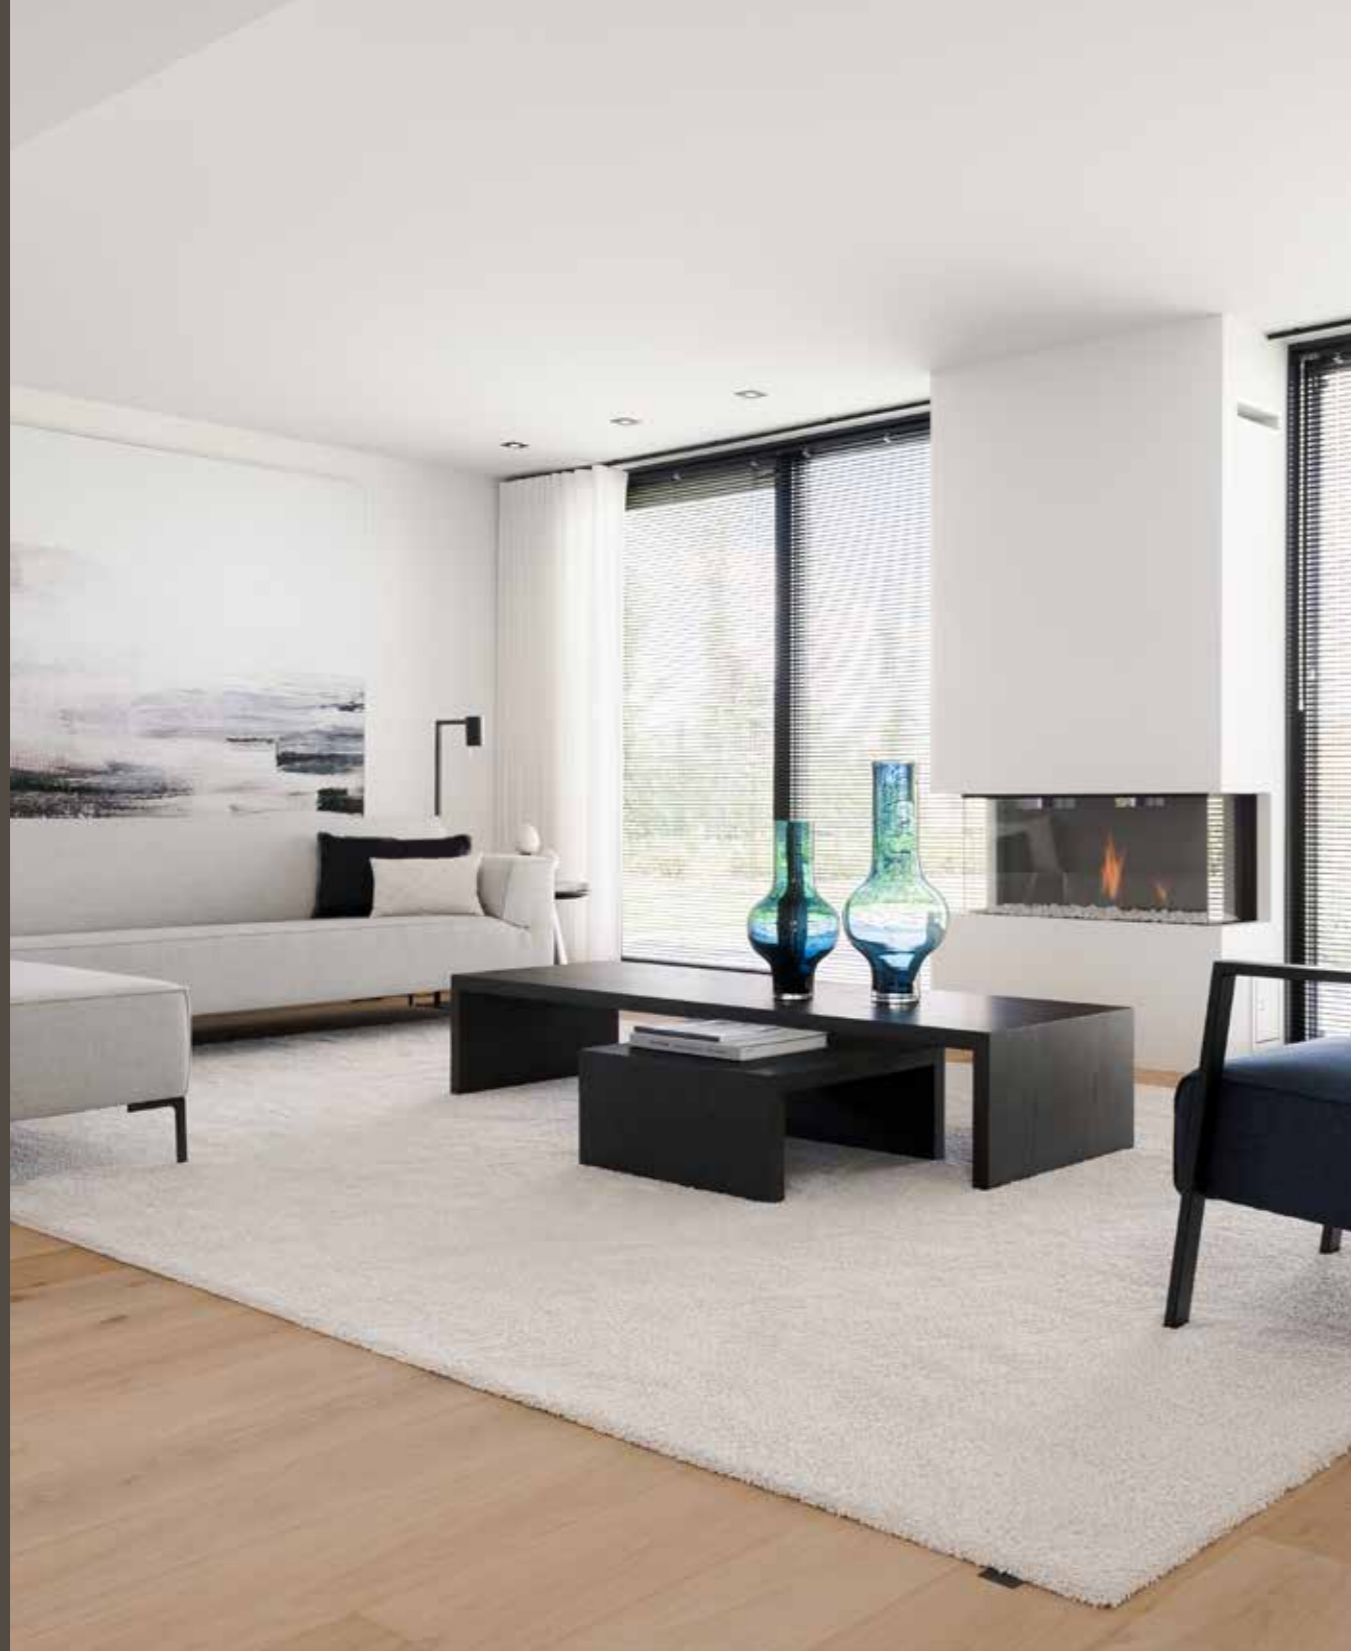

## Facts

Type of manufacture	knitted
Pile material	100% cotton
Back	PES jute
Total thickness	7,6 mm
Pile weight	1400 g/m <sup>2</sup>
Roll width	400 cm

## Symbols

# NORDIC SERENITY

Used quality

3801-002

*In this spacious living room decorated in Scandinavian style, you will find an oasis of peacefulness. Natural light, minimalist furniture and subtle decorative accents create an atmosphere of simple elegance.*

## Cotton \ 3805

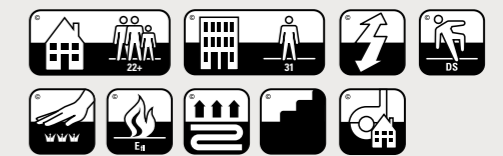

The 3805 is the mottled version of the 3801 and therefore also a true design classic. The writing character is one of the most typical features of this lively and contemporary carpet.

### Facts

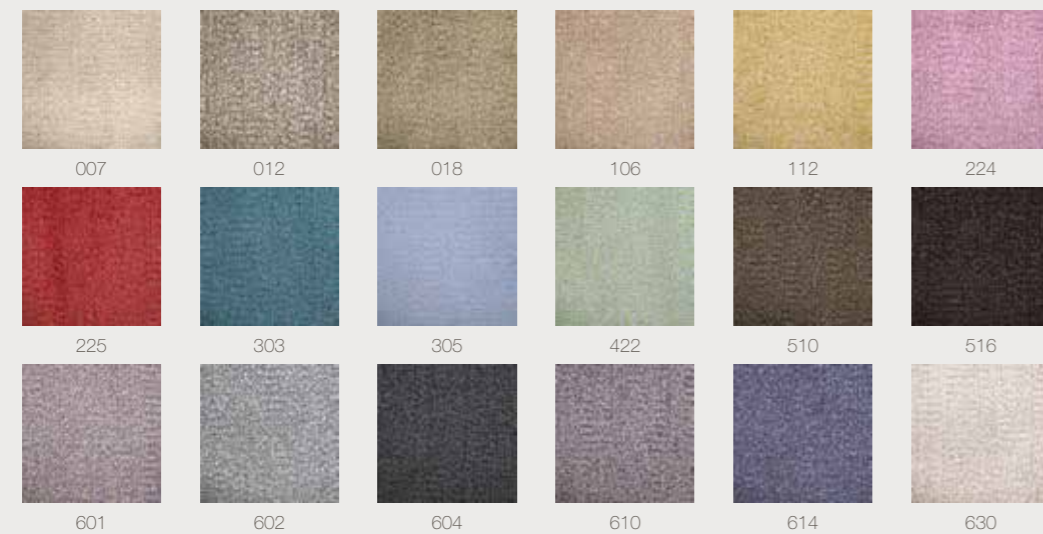

Type of manufacture	knitted
Pile material	100% cotton
Back	PES jute
Total thickness	8,9 mm
Pile weight	1200 g/m <sup>2</sup>
Width	400 cm

### Symbols

## Cotton \ 3802

A chic cotton moquette that combines a soft pile deck with high wear value. The pile is tri-color, but acts as a solid, making the carpet blend well with other colours incorporated into an interior.

### Facts

Type of manufacture	knitted
Pile material	100% cotton
Back	PES
Total thickness	7,5 mm
Pile weight	1800 g/m <sup>2</sup>
Width	400 cm

### Symbols

## Cotton \ 3810

The Van Besouw 3810 is a new version of the design classic 3801. The cotton loop is a lot larger and therefore highly visible. This creates a full look.

### Facts

Type of manufacture	knitted
Pile material	100% cotton
Back	PES jute
Total thickness	11,7 mm
Pile weight	2700 g/m <sup>2</sup>
Width	400 cm

### Symbols

# Cotton \ 3820

Ultimate comfort, that's the Van Besouw 3820. The yarns are processed in a three-color blend. The wide color palette ensures that the carpet can be used well in different interiors.

## Facts

Type of manufacture	knitted
Pile material	100% cotton
Back	PES
Total thickness	11,6 mm
Pile weight	2200 g/m <sup>2</sup>
Width	400 cm

## Symbols

## Wool \ 1806

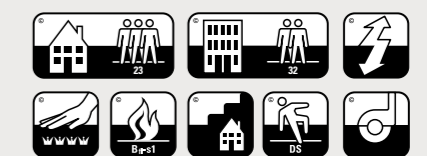

The Van Besouw 1806 is a knitted and timeless velour made of 100% wool. The velours effect is created by the dense pile deck: elegant and luxurious at the same time.

### Facts

Type of manufacture	knitted
Pile material	100% wool
Back	PES jute
Total thickness	9,3 mm
Pile weight	1350 g/m <sup>2</sup>
Width	400 cm

### Symbols

## Wool \ 1803

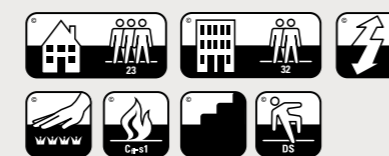

The Van Besouw 1803 is a true Van Besouw. The knitted loop pile executed with a luxurious yarn of 100% wool. A carpet that visibly and tangibly radiates quality and comfort.

### Facts

Type of manufacture	knitted
Pile material	100% wool
Back	PES jute
Total thickness	11,2 mm
Pile weight	1825 g/m <sup>2</sup>
Width	400 cm

### Symbols

# Wool \ 4403

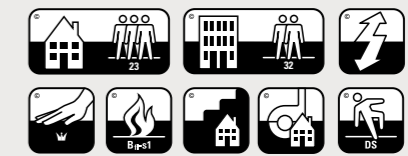

The Van Besouw 4403 is made of half wool and half goat hair. The jute backing completes the natural feel that the 4403 evokes. Delightful simplicity.

## Facts

Type of manufacture	woven
Pile material	50% wool / 50% goat hair
Back	jute
Total thickness	7,1 mm
Pile weight	1425 g/m <sup>2</sup>
Width	400 cm

## Symbols

## Wool \ 4404

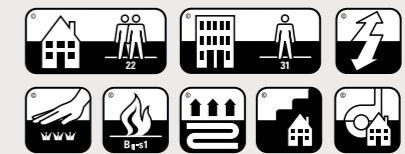

The Van Besouw 4404 has a diagonal structure and is a 100% natural product composed of wool and cashmere hair. The five colours are not dyed: pure nature.

### Facts

Type of manufacture	woven
Pile material	80% wool / 20% cashmere hair
Back	jute
Total thickness	7,1 mm
Pile weight	1425 g/m <sup>2</sup>
Width	400 cm

### Symbols

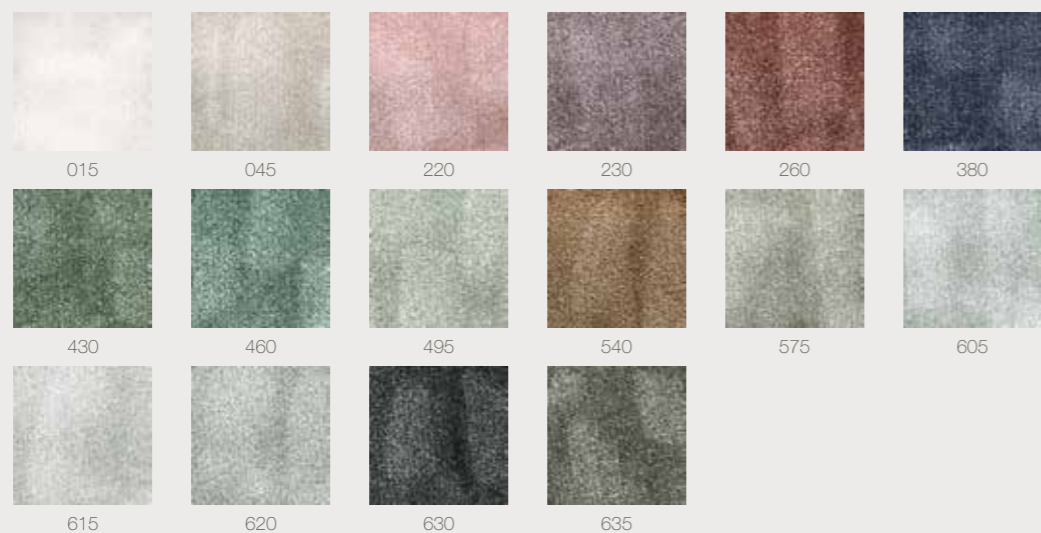

## Soft \ 2605

Ultimate comfort, that is the Van Besouw 2605. The polyamide ultra-soft yarn makes it soft to touch. The shiny yarn gives the carpet an exceptional visual effect.

### Facts

Type of manufacture	tufted
Pile material	100% PA
Back	PES
Total thickness	10,7 mm
Pile weight	1780 g/m <sup>2</sup>
Width	400 cm

## THE VAN BESOUW ATELIER

————— CREATE YOUR OWN UNIQUE RUG

The chosen rug, the designed shape and the carefully selected edging. All elements converge at the Van Besouw atelier.

### COMPUTER-CONTROLLED CUTTING

All rugs are cut by computer. A cutting plan is drawn up for each rug and the carpet is cut from the roll in a dimensionally stable manner. This minimises cutting loss and ensures an efficient process.

### FINISHING OF THE RUG

Finishing the rugs is craftsmanship. All rugs are taken in hand one by one and finished with the desired look and feel.

finishing touches  
**BORDERS**

Volume

The essence of a volume finish lies in folded edges, giving the rug a rich, full look. To ensure comfort and prevent slipping, all rugs come with standard anti-slip underlay.

Blind \ COTTON

Blind bordering is a minimalist finish where the border is subtly stitched around the rug without visible seams. This border is made out of polyester, showing a herringbone structure.

Blind \ LEATHER

The exclusive faux leather is a finish that adds extra luxury to a rug. The material is long-lasting and easy to maintain. A calm color palette due to the natural colors.

Blind \ SUEDE

The suede finish is made of ecological microfiber. This luxurious finish offers many possibilities through its wide range of colors and applicability.

Blind \ PROJECT

The project blind finish is made of strong synthetic material that is ideally suited for high-traffic areas. The material is waterproof, resistant to abrasion, UV light and stains.

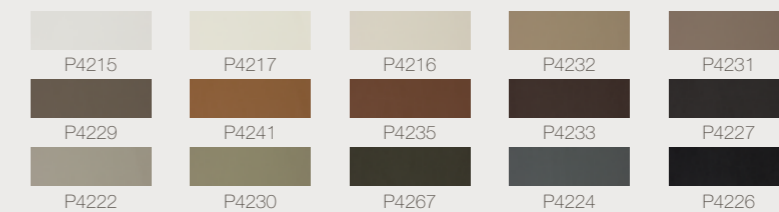

**COLOUR RANGE**

The collection has a wide range of colours and materials. All colours are meticulously tuned so that each rug can be provided with a matching finish.
